

## Request for Program Development Grant Proposals 2010-2011

New Jersey Marine Sciences Consortium/New Jersey Sea Grant (NJMSC/NJSG) has Program Development funds available for FY 2010-11 to support research initiatives that can later form the basis of future competitive proposals. It is anticipated that two (2) projects will be awarded in this cycle.

All Program Development Grant Proposals must address at least one of the following NJMSC/NJSG Programmatic Focus Areas or the Cross Cutting Theme (an area of concentration applicable to any one the four focus areas):

- Sustainable Coastal Development
- Safe and Sustainable Seafood Supply (Fisheries, Aquaculture, Seafood Technology)
- Hazard Resilience in Coastal Communities
- Healthy Coastal Ecosystems
- Urban-Industrial Estuaries/Ports and Harbors (Cross-Cutting Theme)

Please review our [Research Priorities](#) and [Strategic Plan](#) for more information.

To apply please submit:

- Proposal narrative no longer than two pages outlining the Statement of the Problem, Objectives, Methodology, Rationale (including relevance to focus area and prospects for future research) and Expected Results from the proposed work. Use 1" margins, and 12 pt. font
- [90-4 Budget Form](#) with budget details
- Standard Sea Grant [Pre-Proposal Cover Page](#) with institutional signatures (preferably electronic or may be mailed separately)
- CV not to exceed 2 pages for Principal Investigator (PI) and co-PI if appropriate.

Budgets should not exceed \$5,000 for any one project. NJMSC/NJSG will fund ship time if integral to work proposed, but will only fund the purchase of equipment if it supports new directions in ongoing research. Institutions must provide Matching Funds equal to 1 dollar for every 2 dollars requested. Indirect Cost Rate limited to 10% on Federal dollars. Applications are due by COB 26 March 2010.

Please submit your proposal electronically to:
